ABOUT ME

I'm a Software Engineer with nearly 4 years of professional frontend experience, building and maintaining production web applications with React and Next.js. I've worked on large-scale systems and also developed full-stack projects as a freelancer, working with Node.js, PHP, REST APIs, databases, and server-side technologies. I have hands-on experience with deployment, CI/CD, Docker, Git, and application infrastructure.

WORK EXPERIENCE

03/2023 - 08/2026 · BAKU, AZERBAIJAN · ON-SITE

Edumedia-Azerbaijan LLC

National platforms for the Ministry of Science and Education and the Ministry of Foreign Affairs.

Frontend Developer (Middle)

03/2025 - 08/2026

- Digital School (Digital.edu.az) - The ministry's national school platform: one portal for teachers, directors, students and parents. Our biggest and heaviest system. Built 10+ of its services from scratch. AI learning assistant - a frontend developer by role, I was brought into the team that built the students' chatbot on a local generative model trained on the ministry's materials. Launched in June 2026.
- Video.edu.az - Moved off the old system and rebuilt from scratch in Next.js.
- Pts.edu.az - Internal system for vocational schools. 10+ services built or reworked - online diplomas, individual study plans, student transfers.
- Portal.edu.az - Study-abroad applications under the HTP and DP programmes.
- Karabakh.edu.az - Karabakh University's official site.
- Mfa.gov.az - The Ministry of Foreign Affairs' official website - support.
